
A Brotherhood Against Motherhood

Where are the branded / so-called 'black men'??

All of these 'brothers' sit with a Fez on their crown, that has the sword over the woman's head, indicating the cutting off of their Mother's Head.

Yet, they were all crowned by Her at Birth!!!

and were born a Mason, which is a Mother's Son -- Ma's Son -- Mason.

Note: When the head of a baby begins to show at childbirth, as the child is being 'departed from the flesh' of their Mother, it is called "crowning".
