

“Defacto Agent Activity”

by Maroc Bey

Peace Fellow Moors

Every time the de-facto agents give us a charge it is usually (99%) based on fraud and the presumptive belief that we owe them something. Me and my brothers are on trial with you. From my point and the point of the court your rights are my rights. When they see you they see me. This is the quiet war started over 500 years ago when the defeated us in what is now called Spain. That victory gave them the unity and confidence to peruse us and our holdings on OUR LANDS all over the globe.

It is to be expected, they would deny the constitution which they are bound by. However by doing so they also deny the authority that allows them to sit and hear the case as a judge and now you have a jurisdiction (person, subject matter and territory) issue. We must consent to play in their Color of Law court. We are Man created by Nature/God with naturally endowed unalienable rights. This means that (no bill of attainder applies) we can't be charged with a crime by just living, breathing and we don't owe anything to anyone for our right to life.
