

# Happy Vernal Equinox / Natural New Year

Wake up and smell the Earth... by Mizraim Aleph El

Spring has Sprung for the Gregorian 2016 calendar. I trust the aboriginal people all over the planet earth, specifically in the North Hemisphere, go through a productive Anthesis, influenced by the cosmos like all other natural living things earth born.

I send out positive energy that the stations of the sun, that lead to victory, will wake up all **dormant things**, including the productive thoughts of the natural people. Thereby all Moors will become active and not passive. Whereas, it is the natu-

ral function of the sunrays penetrating the Earth / Cosmos that cause vegetation / **Flowers** to grow. I emphasize it is the magnetic mother, the Moon that correlates in harmonic conjunction /co-operation with the sun, and has an effect on we, the natural people of the natural land as well.

Before going into “Easter” history/cosmo information, I would like to dedicate my honor to the season, and to **Noble Drew Ali**, by quoting a lesson from the Circle 7 directly analogous to the **Picture of the Moor** and the “flowers”/Spring time, and correlates with the “Unity of Life.”

**Life Based / Analogy Lesson:** “The man who spends his time in pulling **other peoples weeds** can have no time to pull his own, and all the choicest **flowers** of life will soon be choked and die, and nothing will remain but darnel, thistles and burs.” **Reference:** Circle 7 Holy Koran Chapter 9:24. **Note:** The life lesson is to realize you must be endeavored with Self first.

The Natural New Year is March 21<sup>st</sup>, the Vernal / Spring Equinox. Originally and Historically Easter was celebrated on the Vernal / Spring Equinox. This 2016 Gregorian calendar year, Easter, decided by the Nicean Council, is in the same week. .... let us analyze *why* this so called Easter celebration is mutable every year.

In the year 787 A.D. the **Second Council of Nicaea** met to determine the date of the celebration of Easter, which was decided to be the 1<sup>st</sup> Sunday after the 1<sup>st</sup> **full moon** after the Vernal / Spring Equinox, which brings in the spring season. In this Gregorian calendar year 2016; Spring came on Tuesday 21<sup>st</sup>; full moon was Wednesday 23<sup>rd</sup> and the first Sunday 27<sup>th</sup>.

It has been asserted that the Second Nicean Council, corresponds with the 7<sup>th</sup> of the “**Ecumenical Council**” meetings. **Note:** The Nicene or Nicaea creed was professed by Christians. Constantine was the head of the first people to claim conversion to Christianity and established the first Nicean Council in 325 A.D. Constantine’s father became Caesar, or a Caesar, as it is a Christian title.

**Definition of “Ecumenical Council”:** in church history; a general council or assembly of prelates and divines, representing the whole church, as the council of nice. **Reference:** Page 385 *Websters Unabridged Dictionary—Published year 1936. G.C.*

# The 7th Ecumenical Council

**Picture Right:**

Ecumenical Council  
(17<sup>th</sup> century 1600s  
Novodevichy Convent  
Moscow).

**Note:** The people in the depiction are of various copper-toned complexions.

At any rate and whatever Council, political or religious customs and / or beliefs, affiliations, historical backgrounds, etc, that one finds themselves a party to, it is of great interest and importance to notice that it is the common universal religious celestial movements of the cosmos that underline, surround, effect and dictate the celebrations, as they are celestial vibrations, such as the Vernal / Spring Equinox.

**As well,** astrology or astro-logics have all to do with the “Judicial System”—the Law — All Law. Below is a reference to substantiate that fact:.

Definition of “**Judicial**”- in astrology: Giving judgments regarding future events.

**Reference / Source of Law:** *Websters Unabridged dictionary page 913 as definition of judicial.*

**That being said,** we know Easter is dealing with the cosmos, specifically the *Eastern Star / Ishstar / Astarte, Venus* and is correlative to fecundity / fertility. The Spring Equinox represents the harmonic cooperation of the fertility of the earth in conjunction with the **Sun** in the Northern hemisphere. Thus comes the ascension of the Sun rays influences the ascension of the earth’s flowers, leaves on trees, fruits, vegetations and greener grass—nature’s new year. Seasons are ushered in by the stations of the sun.

Constantine instructed that Christians and non-Christians should be united in observing the **ven-er-able day of the sun**, or Sunday referring to the sun-worship. Furthermore, and long after his oft alleged conversion to Christianity, Constantine’s coinage continued to carry the symbols of the sun. Even after the so-called pagan gods had disappeared from the coinage, Christian symbols appeared only as Constantine’s *personal* attributes: the chi ro between his hands or on his labarum, but never on the coin itself. **Even** when Constantine dedicated the new capital of Constantinople, which became the seat of Byzantine Christianity for a millennium, he did so wearing the Apollonian sun-rayed Diadem; no Christian symbols were present at this dedication.

---

**Note 1:** Chapter 35:2 of Circle 7 Holy Koran (below) shows the contrast of Christianity and the Islamic Moslem /Muslim Creed.

2. The sun is not Allah, though his noblest image. He enlighteneth the world with his brightness; his warmth giveth life to the products of the earth. Admire him as the creature, the instrument of Allah, but worship him not.

**Note 2:** They called the aboriginal and indigneous Moors pagans, and it was the Moorshead that were originally on coins along with icons of the Sun. Later, the modern European substituted themselves on these coinages and on the Federal Reserve Notes of today, wherein they honor and make idols of themselves. However, the current day American National Constitution—the Supreme Law of the Land, keeps the divine principles of cosmology / astrology in both Article 1 and Amendment 1. In **Article 1: Section 10** it says that the only lawful money is gold and silver coins, as gold and silver are the symbolic metals representing the Sun and the Moon, and in **Amendment 1**, Religious Freedom is preserved.

**Note 3:** “The Guiders of the Nation come out from “**Sunday School**”, as stated in Act 5 of the MSTA By-Laws, and is also an acknowledgement of cosmology. **As well**, in Chapter 1 of the Circle 7 Holy Koran, it says: “*let him know that cherubim and seraphim that rule the stations of the sun and spirit of the mighty Allah who rule the solar stars are his protectors and his guide, and they will lead to victory.*”

Christianity as a religion was born out of the desire to be freed from slavery and tyranny suffered at the hands of the ‘jews’, which were the aboriginal copper-toned people, not the modern day pale-skinned so-called jews of today. The origins of calling one a ‘jew’ comes from the fact that a jew is one who possesses a jewel of knowledge, as Yehoshauh (Jesus) was. Rabboni or Rabbi is a title indicating the level of knowledge obtained by the Jew-El. Yehoshuah (Jesus) is referred to as a Rabbi / Rabboni in what is known as the ‘biblical’ scriptures commonly used today. At the same time, Rabbi is considered today to be a title of clergy in a modern day jewish synagogue.

Constantine made new laws regarding the Jews. They were forbidden to own Christian slaves or to circumcise *their* slaves. **Reference:** *About Constantine—Wikipedia*

So, the ‘Jews’ had slaves and it was those slaves who rose to establish Christianity for their earthly Salvation.

It is true that the unseen creates the seen and man must learn by signs and symbols. However, keep in mind that Constantine and the early followers and establishers of Christianity lacked wisdom to truly inner-stand what they could not see, such as the element of air. Much of what they did see, as far as worship with icons relative to Moors, is idolatry. The Pope to this day, idolizes the Moabite / Moorish woman (fertility) and child image. Christianity became a political jurisdiction *influenced by true religion*. The influence of true religion astrology / judicial astrology, is not what is taught in alleged religious institutions today. Christianity was not established for the earthly salvation of the natural and aboriginal people, Moors / Asiatics. *See Chapter 46 of the Circle 7 Holy Koran.*

**Happy Natural New Year / Spring Season / Easter.**  
**Wake up and smell the Earth!!!**

**Peace On Earth and Good Will To All Men**
