### ETYMOLOGY & LAW

Etymology is a word that composes, History and Law esoterically hidden from the eyes of the lay person, they are not trained to be didactic, which means to be taught, to learn, and wisdom. It is very important to learn the Science of Etymology in Law, for the reasons that it will reveal denotative terms, where one can see how lawyers, esquires, and attorneys are word smiths to use legalese in a connotation deceptive fashion. Lawyers, Esquires, and Attorneys are very dilatory and crafty with legal terms in a courtroom. St. Luke chapter 11 verse 46; “Woe to you also, you lawyers! For you load men with burden hard to bear, and you yourselves do not touch the burdens with one of your fingers, and verse 52; “Woe to you lawyers! For you have taken away the key of knowledge. You did not enter in yourselves, and those who entering in you hindered”. This hindering is the “BAR”, like in Bar-Mitzvah or the British-Accreditation – Registry. Herein are legal terms listed below:

1. **In Propria Persona** = “In one’s own Proper Person”, it was formerly a rule in pleading that pleas to the jurisdiction of the court must be plead *in propria persona*, because if pleaded by an attorney they admit the jurisdiction, as an attorney is an officer the court.

2. **Sui Juris** = Of his own right, not under any legal disability, or the power of another, or guardianship.

3. **Non Assumpsit** = The general issue in the action of *assumpsit*, being a plea by which the defendant avers that “he did not undertake or promise as alleged by the plaintiff.

5. **Res** = Things (res) have been variously divided and classified in law, ex., in the following ways; things real and things personal, things in possession or things in action, individual objects. Also persons are for some purposes and in certain respects regarded as things.

6. **Escheat** = A reversion of property to the state in consequence of a want of any individual competent to inherit.

7. **Estate** = The degree, quantity, nature, and extent of interest which a person has in real and personal property.

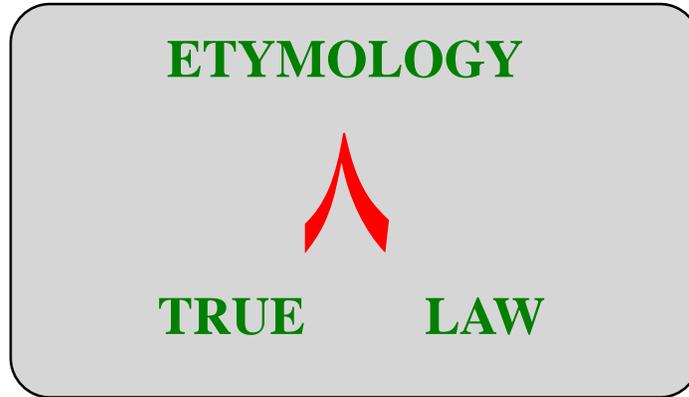

8. **Escrow** = A legal document, such as a deed, money, stock, or other property delivered by the grantor, promisor, or obligor into the hands of a third person.

9. **Delivery** = The act by which the res or substance thereof is placed within the actual or constructive possession or control of another.

## **ETYMOLOGY & LAW** **LINGUISTIC METHODOLOGY**

1. Etymon is the root-prefix to the word **Etymology** meaning; true, truth, and origin.

2. Logy is a root-suffix, to the word Etymo**Logy** meaning study of, Logic (reason), Logos (word), Lodge (house), Log (law).

True - Law, is a divine law, it is nature (netcher) within it's self, the cause is in it's Origin of self, the Truth, any thing in oppositional to it is in connotation or a fraudulent conveyance of Thought and Language, meaning Reading, Writing, Utterance (speech/speak). The Moorish Latin term "Mentiri est contra Mentem ire" to lie is to go against the Mind. Here are examples of color of law's thesis – antithesis – synthesis below:

1. **The Thesis**, Resident is a person who has a residence in a place.
2. **The Antithesis**, A Resident is not necessarily either a citizen or a domiciliary.
3. **The Synthesis**, Resident is a compound noun word, res – ident, the **res** is things have been variously divided and classified in law, ex., in the following ways; things real and things personal, things in possession or things in action, individual objects. Also persons are for some purposes and in certain respects regarded as things. Ident is a cog-ant of idem meaning to identify or recognize.

Now **look** at the **Synthesis** very carefully in the parts of speech in color of law, it is taught that a noun is a person, place or thing, etymologic law meaning true – law illustrates, that it is a fraudulent conveyance of language to put a person in the same category of places, and things, for the reasons it, designate a person as a thing(s) is **personal property**, and putting him/her as the thing(s) in a place is called **real (e)state**, meaning **real property**. This is the Connotation or color of law why it is very important to comprehend Etymology and Law, will reveal to the layman his/her Inpropria persona sui juris status, Nationality & BirthRites, so a Moor will not allow his/her status to be award of the (E)State of or personal property of another.
